BALTOSCOPE SCANNIX +

Bit depth:	8 , 12 and 16 bit
Film width:	2.36" to 14"
Film length:	8" to 51"
Auto film feeder:	25 films capacity
Software:	Acquisition
Geometric accuracy:	Better than 1%
Scan rate:	92 lines / second
Light source:	Led illuminator
Operating temp.:	10 to 35°C
Dimensions:	48 x 58 x 83
Weight:	21 kg
Mains:	85 ~ 260 V

MAIN FEATURES

- Exclusive **Multi-strip** Film Feeder
- Complete solution (Scanner, feeder & software)
- Acquisition dedicated software from the Inspection Suite
- Bit depth of 16 bits
- Resolution of 170 to 44 microns
- Scans films from 2.36" to 14" wide and 8" to 51" long
- Up to 25 films of various size in batch mode

Multi-strip Film feeder

KEY ADVANTAGES

- Automated calibration of the scanner
- Nearly maintenance free thanks to the auto-calibration
- Diconde format included
- Region of interest feature (ROI)
- Compatible with Balteau NDT Inspection Suite of software such as IPS012
- ASME Section V Conformance
- 25 film capacity with mixed up size batches
- Fasten the digitizing process up to 5 times
- No storage room with specific equipment to regulate temperature and humidity needed which reduces that cost zero
- Risk of losing processed film is dramatically reduced with digitized versions
- Transfer of radiographies by emails

Gain of space because of no physical storage...

Big brother of the Scannix, the Scannix + is an industrial X-Ray film digitizer specifically designed to offer the highest quality of images for the NDT market. Not an additional operation but a true improvement.

In the radiographic industry, Films storage and post processing have always been neglected. Both these aspects are however very important matters to take into account in the overall costs and efficiency of the Radiographic process. A computerized storage of the radiographies will also dramatically reduce the risk of losing the archives of a job.

The scannix + is driven by our Acquisition software and is delivered with the scanner as a standard. As a digital image, a radiography can also be processed with our Image Processing Software IPS012 allowing details that were hidden to appear, thanks to different filters and the contrast settings but also a lot of different tools and add-on like SRb, SNR, etc. Acquisition can also be linked

Acquisition software supplied with the Scannix to digitize X-Ray radiographies

to IPS012 allowing an automatic transfer of the image to start processing the radiography. Scanning radiographies will also improve and fasten communications as digitized version can easily be send by email to a customer or an expert.

Not only because it is environment friendly but also because it is an inexpensive operation to perform, High definition scanning of your films is the key solution to improve your service quality and extend your inspection capabilities.

Specifications	Units	BALTOSCOPE SCANNIX +
Optical density range:		0,5 to 4,5 (based on ISO14096)
Bit depth:	Bit	8, 12 and 16 bit grayscale output
MTBF:	Hours	> 50,000
Film sizes:	Width	2,36" to 14"
	Length	8" to 51"
Auto film feeder:		Standard 25 film capacity (mixed size batches, no presorting necessary)
Translation table:		Linear OD
Geometric accuracy:		Better than 1% or 2 pixels (whichever is greater, in both axes)
Scan rate:		92 lines / second
Hardware interface:		USB 2.0
Software:		Acquisition (included) from the Inspection Suite
Operating temperature:	°C	10 to 35 (20 to 85% relative humidity, non-condensing)
Light source:		LED illuminator
Detector:		Next generation Solid-State High-Definition CCD
Dimensions:	cm	48 x 58 x 83 (without feeder and exit tray)
Mains:	V	80 ~ 260
Weight (without rings):	Kg	21

Nominal Resolution	Pixels (14" x 17" film)	Spot size (µm)	DPI	Line pairs / mm	Scan speed
2K x 5K*	2100 x 2550	170	150	3	27,8 seconds
4K x 5K	4200 x 5100	85	300	6	55,6 seconds
8K x 10K	7980 x 9690	44	570	11	105,6 seconds

* ACR standard for teleradiology guidelines (Revision 35 1998) recommends 2,5 line pairs/mm minimum

MULTI-STRIP FILM FEEDER

- 5 slots x 6cm x 48cm or 3 slots x 10cm x 48cm
- 1,8 kg

ACQUISITION SOFTWARE

- Included in standard package
- Grey window
- ROI (region of interest)

IPS012 (Image Processing Software)

- Sold separately
- Linked to Acquisition for easy transfer
- Lots of features and add-ons
